### Time of Service Fees

This office charges reduced fees to all our patients. We have chosen to lower our fees below the Oregon Relative Value schedule because we do not bill insurance companies. Historically, billing insurance companies cost patients more money because Dr Honeyman is out of network.

The lower "time of service fee," must be paid while you are here that day. If you choose to bill your own insurance, we will provide you with a receipt. WE WILL NOT bill your insurance, or answer your insurance company's request for more information. If your insurance informs you the diagnosis code needs "correction" we will provide you with a corrected invoice. The lower fee is intended to help those with a high deductible insurance policy, who are uninsured, or under insured.

Since January of 2016 started it is cheaper for patients to pay us and bill your own insurance. With the lower fee, you pay less than you will if we bill your insurance.

At the end of your phone visit, please give Dr Honeyman a credit card number for payment of the visit.

For health savings account or similar accounts, we will provide you with a receipt in the form of an invoice. We do not itemize the supplements. You can request a "Rx for supplements" form from us that you fill out and Dr Honeyman will sign. This is only for supplements you purchase from this office. The "Rx for supplements" form signed by Dr Honeyman with your invoice is all we will provide. We will not fill out any additional forms. If you insist on more than we normally provide, then you will be charged.
