

USHA HONEYMAN, D.C., N.D., DABCI
Chiropractic Internist and Naturopathic Physician
1368 NW Lincoln Ave
Corvallis, Oregon 97330
541.754.6323

MEDICATIONS/Prescriptions: Plan ahead!!!

Please allow 48 hours

- Refill Rx requests are generally faxed to us from your pharmacy after you have called them to request a refill. If it is a Rx you have had before at that pharmacy, they will fax us the request for the SAME Rx. If you missed or did not make your followup appointment, no refills will be given.
- If you are asking for a change in your Rx, dosages, or medication, it is best to make an appointment for Dr Honeyman to evaluate the situation properly.
- A request for a NEW medication without an appointment requires evaluation and management time for Dr Honeyman to talk with you and determine the correct medication and dose. You will be CHARGED for the evaluation and the Rx if you don't have an appointment on our schedule: \$60-\$100.
- If you request a dose CHANGE of a medication you are already taking without an appointment you will be CHARGED a fee for documentation and the new Rx: \$25-\$50.
- If we have called in or faxed your Rx to your pharmacy and you want to change it or the pharmacy after we have completed the Rx, you will be charged: \$25-\$50. If you are changing pharmacies we need you to provide us with the new pharmacy information.
- If you run out, lose your Rx, forgot it at home and went out of town, or are out of state and want your Rx refilled, you will be CHARGED a fee: \$25-\$50
- Please understand we don't have the resources or the time to keep re-issuing Rx's.

Lab Result appointments: Please Plan Ahead!!

If you are getting lab work done PLEASE schedule for your consult NOW.

- Food Allergy test = 3.5 weeks
- IGenX Lyme testing = 4 weeks
- Basic blood work, thyroid test = 1 week

Please don't ask us to call with results prior to your appointment. We understand it can be difficult to wait for information. We can't predict what day your results will arrive, and it's unreasonable to expect Dr. Honeyman to set aside extra time to call when they arrive. We will provide you with one copy of your lab results. If you want results shared with other providers, you may make copies for them.

Diagnostic Imaging test info:

Your insurance will want prior authorization (PA) for MRI or CT scans, and may require PA for ultrasound studies. Please note: this office does not provide Prior Authorizations for imaging studies of drug prescriptions.
